GLOBAL DIVERSIFIED INDUSTRIAL CHEMICALS

Half Year in Review

Half year ended 31 March 2017

James Fazzino Managing Director & CEO

Waggaman, Louisiana
USA

Zero Harm

Zero Harm for Everyone, Everywhere is IPL's number one priority

Long term target to reduce TRIFR to less than 1.0 set in 2012¹

- 12-month rolling TRIFR as of 31 March 2017: 0.89²
- 36% reduction since setting target
- 93% reduction in Employee Lost Day Severity Rate over the same period³

Process Safety

- 64% reduction in process safety incidents in the 12-months ended 31 March 2017⁴

Notwithstanding progress, focus remains on further improving performance

TRIFR and Employee Lost Day Severity Rate

Focus on Severity of Injuries and Process Safety

1. TRIFR calculated as the number of recordable injuries per 200,000 hours worked; includes contractors.

2. Subject to finalisation of the classification of any pending incidents.

3. Employee Lost Day Severity Rate calculated as the number of employee lost work days per 200,000 hours worked represented in days; does not include contractors.

4. Tier 1 and Tier 2 process safety events as defined by the Center for Chemical Process Safety. 12-month statistics shown, as dataset for longer periods is not available.

1H17 Overview

NPAT of \$152.1m, up 11% versus 1H16 NPAT ex IMIs¹

- EBIT of \$242.8m, up 23% versus 1H16 EBIT ex IMIs

Strong performance across downstream businesses

- **Explosives:** Record earnings with Americas US\$ EBIT up 24% and Asia Pacific up 4%
- **Industrial Chemicals:** Earnings up \$60m with initial Waggaman contribution²
- **Fertilisers:** EBIT down 67% in line with global prices which were well below long-term trend

Strong upstream manufacturing performance

- 83% Waggaman uptime; compares favourably to benchmarks of newly commissioned plants
- Cheyenne running at near record production rates in final year of a 4-year turnaround cycle³

\$63.9m of BEx productivity benefits delivered⁴

- BEx OFI successful⁵
- Highlights growing momentum of IPL's continuous improvement system

Group movements in EBIT

Strong Performance Across Upstream and Downstream Businesses

1. IMIs: Individually material items

2. Waggaman earnings include delay damages of US\$35.1m as disclosed on 18 January 2017.

3. First 4-year turnaround cycle for Cheyenne; ability to lengthen interval from three years underpinned by BEx (see footnote 3).

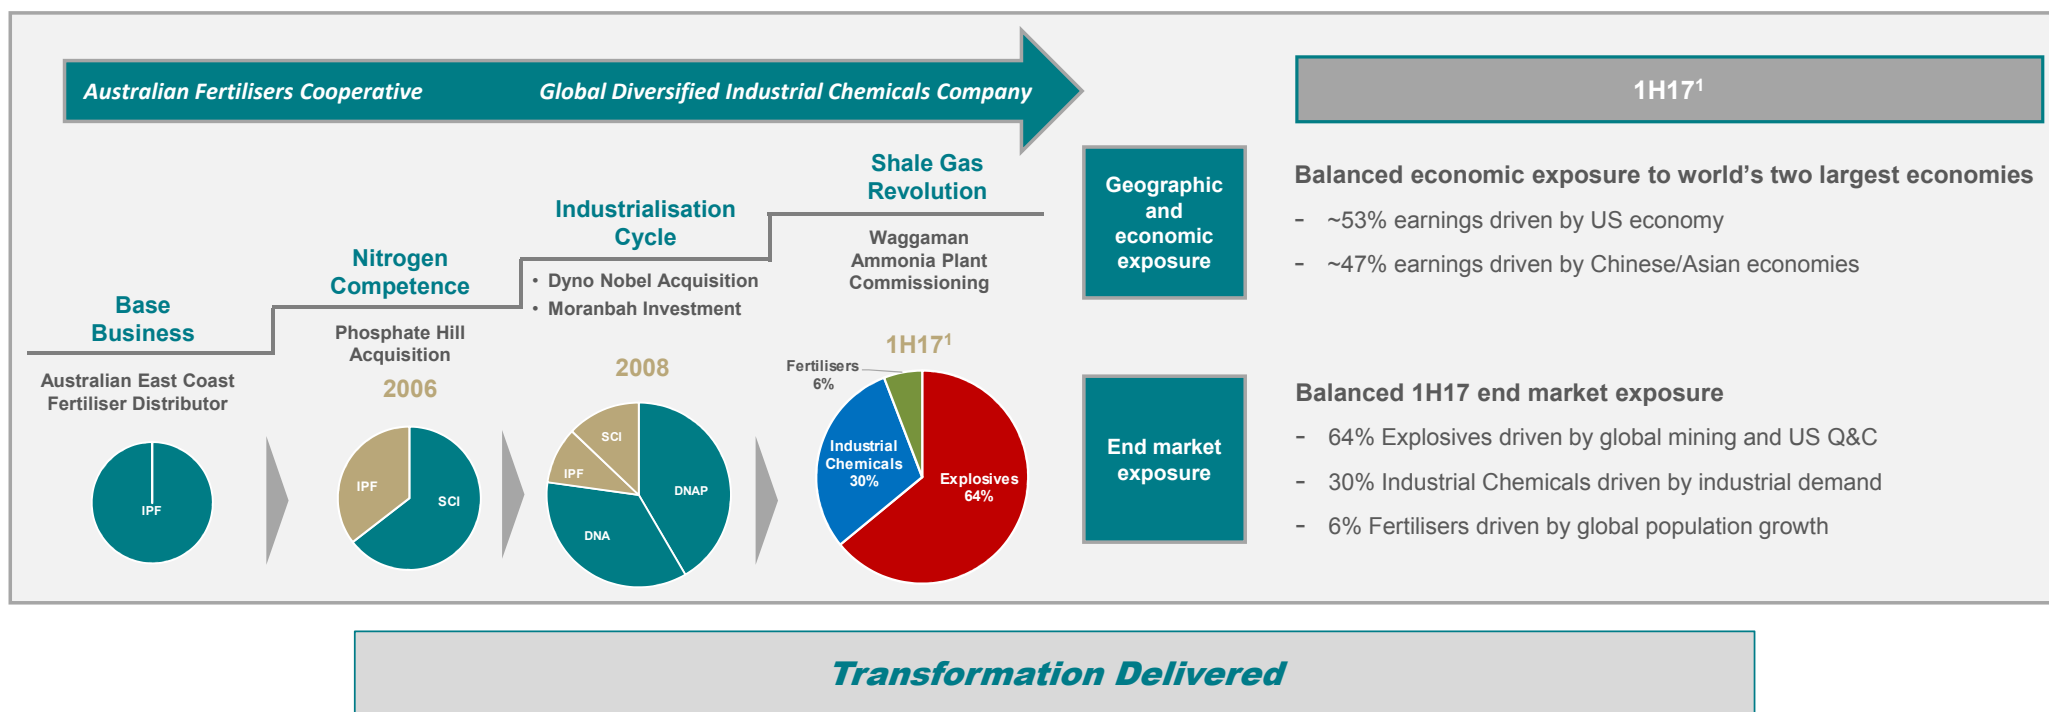

4. BEx: Business Excellence, IPL's continuous and focused improvement system based on Toyota Production System.

5. BEx OFI: BEx Organisation Focused Improvement program announced in 2016.

Transformation

Transformation to Global Diversified Industrial Chemicals company complete

- Initial Waggaman earnings helps move Americas contribution to 53% and Industrial Chemicals earnings to 30% of Group EBIT¹

1. Refer Slide 21.

Strategy and Near Term Priorities

2017 priorities

- Commission Waggaman
- Deliver step change in efficiencies through BEx
- De-lever balance sheet

2018 and 2019 Priorities

- Take Waggaman uptime to 100%+ of nameplate capacity¹
- Leverage US growth (particularly Q&C)
- Deliver next phase of efficiency through BEx
- Increase shareholder returns
- Earn right to grow

Net BEx Productivity Benefits - \$226m since 2013²

Strategy and Priorities Unchanged

1. 800,000 metric tonne (mt) per annum (pa) nameplate capacity.

2. After annual cost escalation of ~\$45m per annum.

ESG & Diversity

ESG is a key management focus¹

- 12% improvement in DJSI rating between 2015 and 2016
- 20% above Chemicals Sector average in 2016

Gender diversity is also a key focus

- Executive Team 33% women from 13% in 2012
- Senior Management 27% women from 16% in 2012²
- Management 22% women from 14% in 2012³
- Global Workforce 16% women from 14% in 2012

1. ESG: Environmental, Social and Governance.

2. Executive Team +1.

3. Executive Team +1,2,3.

GLOBAL DIVERSIFIED INDUSTRIAL CHEMICALS

Financial Performance

Half year ended 31 March 2017

Frank Micallef Chief Financial Officer

Phosphate Hill
Queensland, Australia

Group Financial Performance

Strong financial performance through cyclical low

- Group EBIT up \$45.5m or 23% versus 1H16 ex IMIs
- NPAT up \$15.0m or 11% versus 1H16 ex IMIs

Recovery across Explosives and Industrial Chemicals

- **Explosives:** EBIT up 10% with strong underlying dynamics
- **Industrial Chemicals:** EBIT up \$60m through initial Waggaman earnings including US\$35.1m of delay damages¹

Fertiliser prices weighed on earnings, but are also showing signs of recovery

- **Fertilisers:** EBIT down 67% versus 1H16; however 31 March 2017 spot prices were above 2H16 average

Group EBIT movements

1. As disclosed on 18 January 2017.

Americas

EBIT up US\$54.3m versus 1H16

Explosives: Strong performance, with EBIT up 24% versus 1H16

- Q&C remains primary growth driver, with volume up 5%
- Coal performance encouraging and will benefit from recent market share gains
- US\$14.4m delivered through BEx

Industrial Chemicals: EBIT up US\$46.3m

- Waggaman operational earnings of US\$10.8m
- Waggaman delay damages of US\$35.1m

Fertiliser: EBIT down US\$2.2m with prices major factor

Americas EBIT movements

Waggaman Production

83% uptime achieved in 1H17¹

- Frequency and duration of outages improving as plant matures

~80% FY17 target unchanged

- "Pit Stop" planned for 2H17

WALA Production			
Month	Production (mt)	Nameplate (mt)	Uptime (%)
October 2016	12,591	28,493	44.2%
November 2016	58,515	65,753	89.0%
December 2016	47,954	67,945	70.6%
January 2017	58,118	67,945	85.5%
February 2017	62,052	61,370	101.1%
March 2017	57,857	67,945	85.2%
1H17 Uptime	297,088	359,452	82.7%

Monthly Uptime¹

Daily Production in Metric Tonnes

1. Uptime calculated against an 800,000 metric tonne (mt) per annum (pa) nameplate capacity; from plant handover on 19 October 2016.

Waggaman Earnings

Total earnings of US\$45.9m with the following components:

Operational earnings US\$10.8m

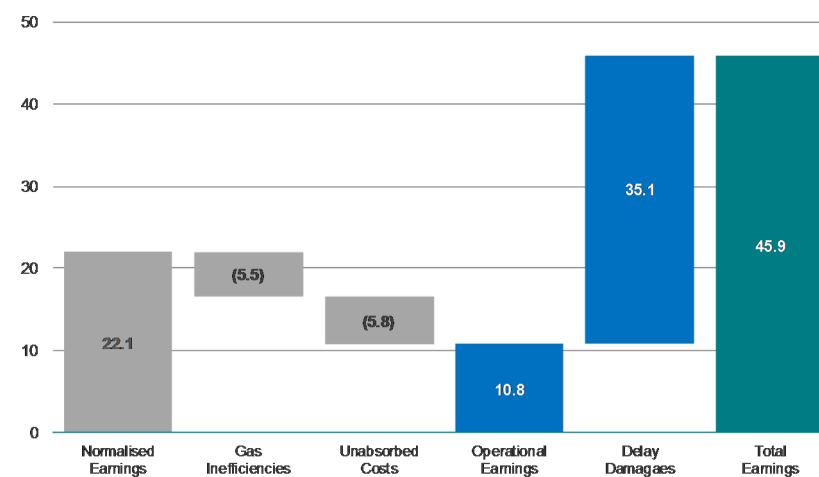

- After US\$5.5m of gas inefficiencies associated with plant running below nameplate, and
- After US\$5.8m of unabsorbed costs associated with plant running below nameplate

Delay damages of US\$35.1m as disclosed on 18 January 2017

- A\$29.1m after tax¹

Waggaman Earnings

US\$ million

1. Based on US statutory tax rate of 38.5% and realised A\$/US\$ exchange rate of 0.743 specific to Waggaman.

Asia Pacific

EBIT down \$24.5m versus 1H16

Explosives: Sound performance

- EBIT up 4% despite Moranbah turnaround
- Resilience underpinned by sustained Bowen Basin met coal demand and privileged position of Moranbah plant

Industrial Chemicals: EBIT down \$1.4m

- In line with decline in commodity prices

Fertiliser: EBIT down 66% with prices major factor

- 19% decline in DAP and 4% decline in urea realised prices vs 1H16
- Strong volume growth reflecting robust agronomic conditions
- Benefit of recent price recovery expected to be realised in second half, 31 March 2017 spot prices currently above 2H16 average

Asia Pacific EBIT movements

Balance Sheet

Strong balance sheet maintained through Waggaman spend and cyclical lows

- Net debt flat versus 1H16¹
- \$804m of undrawn facilities

Credit metrics remain inside target ranges

- Net Debt / LTM EBITDA: 2.4x
- Interest Cover²: 7.9x

Metrics underpin investment grade credit ratings; outlook upgraded since FY16

- **S&P rating:** BBB revised upward to stable outlook on 6 December 2016
- **Moody's rating:** Baa3 revised upward to positive outlook on 19 January 2017

Free cash flow profile positioning IPL for de-levering and increased returns to shareholders

- Underpinned by Waggaman earnings potential
- Cash flow historically second half biased

Interim unfranked dividend of 4.5 cps

- Maintains 50% NPAT payout ratio, ex IMIs

Credit Metrics

As at 31 March 2017

IPL Group	Maturity (CY)	Facility Amount	Drawn Amount	Undrawn Amount
A\$m				
Syndicated Term Loan A	2018	568.0	427.8	140.2
Syndicated Term Loan B	2018	592.7	583.6	9.1
Medium Term Notes	2019	200.0	200.0	0.0
144A/Regulation S Notes	2019	1,046.6	1,046.6	0.0
Syndicated Revolver	2021	654.2	0.0	654.2
Total Debt		3,061.5	2,258.0	803.5
Fair Value and Other Adjustments			5.2	
Loans to JVs, Associates / Other Trade Loans			17.7	
Cash and Cash Equivalents			(90.1)	
Fair Value of Hedges			(453.2)	
Net Debt¹			1,737.6	
LTM EBITDA ex IMIs ²			723.3	
Net Debt / LTM EBITDA ex IMIs			2.4x	

1. Net Debt aggregates interest bearing liabilities plus the fair value of derivative instruments in place economically to hedge the Group's interest bearing liabilities, less available cash and cash equivalents.

2. Interest cover calculated as average LTM EBITDA / net interest expense before accounting adjustments.

EBIT Sensitivities

IPL's earnings are sensitive to external influences

- Global fertiliser prices and foreign exchange are key factors
- Natural gas and ammonia prices are also important factors

EBIT sensitivities

FY16 EBIT Sensitivities	
Americas	
Urea (FOB NOLA) ¹	+/- US\$10/mt = +/- US\$1.7m
Americas ex-Waggaman FX earnings translation ²	+/- US\$0.01 = +/- A\$2.2m
Waggaman FX earnings translation	EBIT is US\$-denominated and subject to translation movements
Ammonia (CFR Tampa) ³	+/- US\$10/mt = +/- US\$6.1m
Henry Hub Natural Gas ³	+/- US\$0.10/mmbtu = +/- US\$2.0m
Asia Pacific	
Urea (FOB Middle East) ⁴	+/- US\$10/mt = +/- 4.7m
DAP (FOB Tampa) ⁵	+/- US\$10/mt = +/- A\$13.8m
FX transactional (DAP / urea) ⁶	+/- US\$0.01 = +/- A\$8.0m

1. Based on 165,000mt of urea equivalent sales (St Helens nameplate).

2. Based on actual FY16 Americas EBIT of US\$118.2m and an average realised exchange rate of A\$/US\$ 0.7359.

3. Based on 640,000 mt of ammonia sales (80% Waggaman nameplate capacity).

4. Based on 347,000 mt of urea equivalent sales (Gibson Island actual FY16 sales) at FY16 average realised exchange rate of A\$/US\$ 0.7393.

5. Based on 1,017,300 mt of ammonium phosphate sales (Fertilisers actual FY16 sales) and FY16 average realised exchange rate of A\$/US\$ 0.7393.

6. Based on ammonium phosphate and urea volumes and prices noted in footnotes 4 and 5, excluding impact of hedging.

GLOBAL DIVERSIFIED INDUSTRIAL CHEMICALS

Outlook

Half year ended 31 March 2017

James Fazzino Managing Director & CEO

White Rock Quarry
Miami, Florida
USA

Outlook Improving

Signs of recovery across business

- **Explosives:**
 - Americas:** Growth in Q&C and Coal market share gains encouraging¹
 - Asia Pacific:** Resilience underpinned by sustained Bowen Basin met coal demand and privileged position of Moranbah plant
- **Industrial Chemicals:** Operational earnings expected to grow as Waggaman production increases
- **Fertilisers:** DAP and urea spot prices on 31 March 2017 above 2H16 levels

FY16 vs FY17 Nitrogen Prices²

FY16 vs FY17 DAP Prices³

Signs of Recovery Across External Markets

1. Q&C: Quarry & Construction.

2. US\$/mt; Source: Bloomberg.

3. US\$/mt; DAP: Diammonium Phosphate. Source: Bloomberg.

Outlook Improving

Second half market conditions improving

- US Q&C and Coal
- Australian mining resilient
- Australian fertiliser volumes

Upside potential exists

- BEx on track to deliver \$100m+ in cash benefits by end of FY17
- Commodity prices at or near cyclical lows
- Continued US Q&C growth underpinned by US\$305Bn highway spending bill

Louisiana ramp up

- ~80% FY17 uptime targeted
- “Pit stop” to be completed in second half

Earn the right to grow

- De-lever balance sheet
- Increase shareholder returns

Appendix C – Company Overview

Half year ended 31 March 2017

IPL – At a Glance

IPL is a global diversified industrial chemicals company

Safety

Zero Harm for Everyone, Everywhere is IPL's number one priority

- 36% reduction in TRIFR since 2012
- 93% reduction in Employee Lost Day Severity Rate over the same period

Global

Global operations via Dyno Nobel and Incitec Pivot Fertilisers

- Primary operations in North America and Asia Pacific
- ~4,500 employees worldwide

Diversified

Balanced end market earnings exposure¹

- ~64% Explosives driven by global mining and US Q&C
- ~30% Industrial Chemicals driven by US industrial demand
- ~6% Fertilisers driven by global population growth

Industrial Chemicals	Explosives	 <p>#2 provider by volume in North America #2 provider by volume in Australia</p>
	Industrial Chemicals	  <p>Major North America ammonia producer - Expected to contribute ~4% of 2017 consumption²</p>
	Fertilisers	 <p>#1 manufacturer in Australia #1 distributor in Australia; 50+% east coast market share³</p>

Manufacturing

Operates 7 major nitrogen and 6 initiating systems plants

- World scale Waggaman ammonia plant completed on time and under budget
- BEx has delivered \$226m in net productivity benefits to date⁴

Financial

Strong balance sheet and cash flow profile

- 1H17 revenue of \$1.5Bn; NPAT of \$152.1m
- Investment grade credit rating from S&P and Moody's
- Major capex related to Waggaman construction completed in FY16

1H17 EBIT by End Market and Region¹

Incitec Pivot Limited

IPL is a global diversified industrial chemicals company

- Founded as an Australian Fertilisers Cooperative in 1919
- Traces explosives history to Alfred Nobel's invention of dynamite in 1867

Reported 1H17 revenue of \$1.7Bn

- ~4,500 employees globally

Incitec Pivot Limited

GLOBAL DIVERSIFIED INDUSTRIAL CHEMICALS 30

Commercial Businesses

IPL's businesses comprise two international brands

- **Dyno Nobel:** Dyno Nobel Americas, Dyno Nobel Asia Pacific
- **Incitec Pivot Fertilisers**

Both hold a leading position in their primary geography

- **Dyno Nobel:** #2 position in North America and Australia by volume
- **Incitec Pivot Fertilisers:** #1 position in Australia by volume

	
<hr/>	<hr/>
Dyno Nobel Americas US ¹ , Canada, Mexico, Chile, South Africa	Incitec Pivot Fertilisers Australia ¹ , Southeast Asia, Indian subcontinent, Brazil

Dyno Nobel Asia Pacific Australia ¹ , Indonesia, PNG, Turkey, China	
<ul style="list-style-type: none">• Explosives	

1. Primary geography

Nitrogen Chemistry

These businesses primarily supply nitrogen-based products

- **Explosives:** Ammonium nitrate based explosives
- **Industrial Chemicals:** Nitrogen related industrial and specialty chemicals
- **Fertilisers:** Nitrogen and phosphorus fertilisers

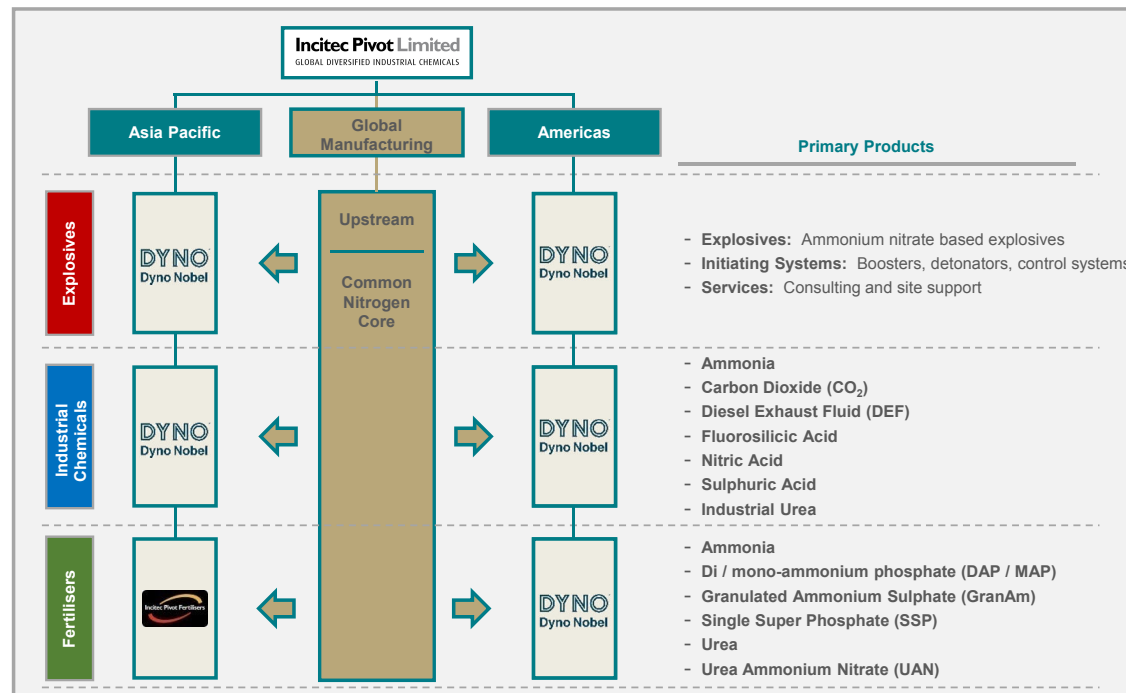

1. Ammonium phosphates include diammonium phosphate (DAP) and monoammonium phosphate (MAP)

2. DEF: Diesel Exhaust Fluid. DEF is an aqueous urea solution made with urea and deionized water. It is used as a consumable in selective catalytic reduction (SCR) in order to lower NOx concentration in diesel exhaust emissions from diesel engines.

Operating Model

IPL's products are manufactured via a common nitrogen core

- Forms the basis of IPL's upstream / downstream operating model

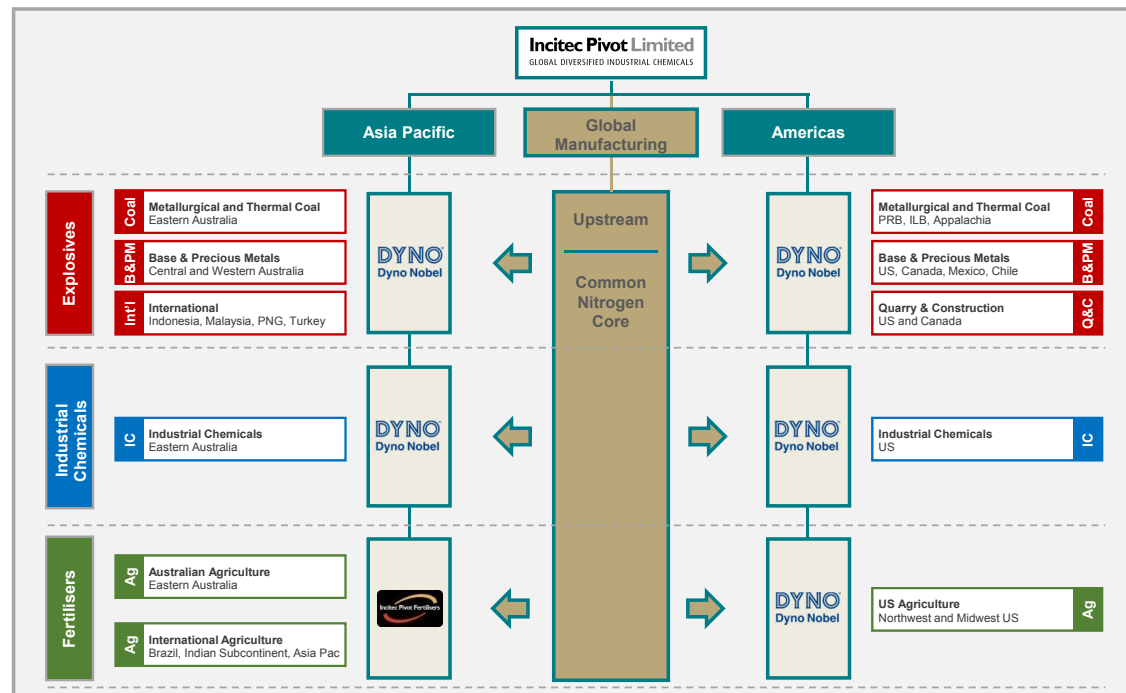

Note: Refer to legend on slide 14

End Markets

These products are supplied to a broad range of end markets

- **Explosives:** Coal, Base & Precious Metals, Quarry & Construction
- **Industrial Chemicals:** Industrial and specialty chemicals
- **Fertilisers:** Agriculture

Incitec Pivot Limited

GLOBAL DIVERSIFIED INDUSTRIAL CHEMICALS

Incitec Pivot Limited

GLOBAL DIVERSIFIED INDUSTRIAL CHEMICALS

Results for the half year ended 31 March 2017

Incitec Pivot Limited (IPL) reported Net Profit After Tax (NPAT) of \$152.1m, an increase of \$15.0m or 11% versus 1H16 NPAT excluding individually material items (ex IMIs).

Group Summary

Summary Financials versus 1H16:

- **EBIT ex IMIs:** \$242.8m versus \$197.3m, up 23%
- **NPAT ex IMIs:** \$152.1m versus \$137.1m, up 11%
- **EPS ex IMIs:** 9.0 versus 8.1 cents per share, up 11%
- **Net Debt:** Unchanged at \$1.7Bn¹
- **Dividend:** Interim unfranked dividend of 4.5 cents per share, maintaining a 50% NPAT ex IMIs payout ratio.

Zero Harm

Total Recordable Injury Frequency Rate (TRIFR) for the 12-month period ended 31 March 2017 was 0.89, representing a 36% reduction since 2012.² Employee Lost Day Severity Rate declined 93% over the same period.³

IPL reported a 64% reduction in process safety incidents for the 12-month period ended 31 March 2017.⁴

Business Review

1H17 EBIT was up 23% as compared to 1H16 ex IMIs, driven by record Explosives earnings and initial Waggaman contribution, but partially offset by low fertiliser prices. IPL's primary focus remained on managing controllable factors, with BEx delivering \$63.9m in net productivity benefits.⁵

- **Explosives:** Earnings up 10%. Americas US\$ EBIT up 24% driven by sustained Quarry & Construction growth and BEx initiatives; Asia Pacific up 4% underpinned by resilient Coal and Base & Precious metals demand and BEx initiatives.
- **Industrial Chemicals:** Industrial Chemicals EBIT up \$60.0m, which included initial Waggaman operational earnings of US\$10.8m and delay damages of US\$35.1m as disclosed on 18 January 2017.
- **Fertilisers:** Earnings down 67% in concert with global fertiliser prices which were well below long-term trend.

IPL Group	Half Year Ended 31 March		
	1H17	1H16	% Change

Credit Metrics			
A\$m			
Net Debt	(1,737.6)	(1,739.5)	0.1 %
Interest Cover ⁶	7.9x	9.5x	
Net debt / LTM EBITDA ex IMIs	2.4x	2.1x	

- **Global Manufacturing:**
Waggaman: Handover of world scale ammonia plant which was completed safely, on time and below budget. 83% uptime achieved since handover on 19 October 2016.
- **Group:**
Transformation: Initial Waggaman earnings helped move Americas contribution to Group EBIT from 35% in FY16 to 53% in 1H17, and completes IPL's transformation to a Global Diversified Industrial Chemicals company.

1H17 EBIT Contribution⁷

BEx: \$63.9m of net productivity benefits delivered through the BEx Organisation Focused Improvement (OFI) program announced in 1H16. \$225.9m of net BEx benefits delivered since program inception.

Balance Sheet: Robust balance sheet notwithstanding a normal seasonal increase in working capital; leverage remains inside target range of $\leq 2.5x$, after US\$804.9m expended on Waggaman, excluding capitalised interest, and challenging cyclical conditions. Net debt unchanged period on period.

NOTE: Numbers in this report are subject to rounding. Definitions and Notes appear on the last page of this report. All figures are in A\$ or metric tonnes (mt) except where noted.

Outlook and Sensitivities

IPL does not provide profit guidance primarily due to the variability of global fertiliser prices and foreign exchange movements. Instead, IPL provides an outlook for business performance expectations and sensitivities to key earnings drivers.

Outlook

Outlook by end market follows:

- Explosives:** Continued growth in the Quarry & Construction sector, together with Coal sector market share gains, are expected to benefit Americas earnings in the second half. Asia Pacific volumes will be supported by long-term contracts and prevailing metallurgical coal and iron ore prices.
- Industrial Chemicals:** Operational earnings from Waggaman are expected to grow as production levels increase. These earnings are subject to movements in ammonia and natural gas prices.
- Fertilisers:** Well above average demand experienced in Australia in 1H17 is expected to continue into the second half, underpinned by encouraging agronomic conditions and improved water storage levels.

Fertilisers earnings will continue to be dependent on global fertiliser prices and the A\$/US\$ exchange rate. It should be noted that 31 March 2017 spot prices were above IPL's average realised 2H16 prices as set out below:

Fertiliser Price and Foreign Exchange Rate Movements	Average Realised			Spot ^a
	1H16	2H16	1H17	31 March 2017
Fertiliser Price Movement (US\$/mt)				
DAP (FOB Tampa) ⁹	388.0	327.6	316.1	375.0
Urea (FOB Mid East)	236.6	197.5	226.7	212.0
Ammonia (CFR Tampa)			267.1	340.0
Foreign Exchange Rate Movement				
A\$/US\$	72.8	75.3	74.8	75.4

- Group:**

Cyclone Debbie: Estimated \$5.0m impact to earnings in 2H17 in addition to the \$2.6m impact experienced in the first half as described in the Asia Pacific business review.

Corporate: Full year corporate costs are expected to be approximately \$20.0m.

Borrowing Costs: Net borrowing costs for the full year are expected to be approximately \$120.0m.

Hedging: 75% of estimated 2H17 US\$-linked fertiliser sales are hedged at a rate of \$0.77 with full participation in downward rate movements to \$0.70 and 50% participation thereafter.

Turnarounds: Major turnaround planned for Cheyenne is due to commence in September 2017 with an expected duration of six weeks.

BEx: BEx is on track to deliver \$100m+ in net productivity benefits in FY17. Program then expected to revert to ~\$25m per annum thereafter consistent with guidance of previous years.

FY16 EBIT Sensitivities

Americas

Urea (FOB NOLA) ¹⁰	+/- US\$10/mt = +/- US\$1.7m
Americas ex-Waggaman FX earnings translation ¹¹	+/- US\$0.01 = +/- A\$2.2m
Waggaman EBIT is US\$-denominated and subject to FX earnings translation	translation movements
Ammonia (CFR Tampa) ¹²	+/- US\$10/mt = +/- US\$6.1m
Henry Hub Natural Gas ¹²	+/- US\$0.10/mmbtu = +/- US\$2.0m

Asia Pacific

Urea (FOB Middle East) ¹³	+/- US\$10/mt = +/- 4.7m
DAP (FOB Tampa) ¹⁴	+/- US\$10/mt = +/- A\$13.8m
FX transactional (DAP / urea) ¹⁵	+/- US\$0.01 = +/- A\$8.0m

Sensitivities

The above table provides sensitivities to key earning drivers as they relate to the 2016 financial year, subject to the footnotes found on Page 14.

As demonstrated, IPL's earnings are influenced by movements in global commodity prices and foreign exchange rates. Investors should be cognisant of these factors.

Americas

1H17 EBIT Contribution⁷

Americas contributed 53% of Group EBIT in the half, up from 35% in FY16. This result was underpinned by record Explosives earnings and initial Waggaman earnings and delay damages.⁷

Business Performance

EBIT from the Americas business was US\$100.8m, an increase of 117% as compared to 1H16.

EBIT Movements (US\$m)

EBIT movements by sector versus 1H16 follow:

- **Explosives:** US\$10.2m due to continued growth in the Quarry & Construction sector and BEx benefits.
- **Industrial Chemicals:** US\$46.3m primarily reflecting operational Waggaman earnings and delay damages.
- **Fertilisers:** (US\$2.2m) driven by global fertiliser prices which were well below long-term trend.

Incitec Pivot Limited

GLOBAL DIVERSIFIED INDUSTRIAL CHEMICALS

Results for the half year ended 31 March 2017

Americas – Explosives

Explosives comprised 52% of Americas EBIT and 28% of Group EBIT in 1H17.⁷

EBIT Movements

Explosives earnings increased US\$10.2m or 24% versus 1H16 due to the following factors:

Cyclical and structural factors:

- **Quarry & Construction Growth:** US\$2.0m from sustained sector growth, which included a 5% increase in volume versus 1H16.
- **Coal:** (US\$5.4m) primarily due to continued coal destocking.
- **FX:** (US\$0.8m) attributable to the strength of the US\$.

Operational factors:

- **BEx:** US\$14.4m through continuous and organisation focused improvement initiatives.

Manufacturing

Ammonium nitrate production from the Cheyenne and Louisiana, Missouri plants increased 14% in aggregate during the period as compared to 1H16, with both plants now fully utilised.

Cheyenne achieved a 15% increase in ammonium nitrate production and manufactured a near-record amount in the final year of its first four-year turnaround cycle. The ability to extend Cheyenne's turnaround interval from three to four years was enabled by BEx. The plant is scheduled for a six-week major turnaround that will commence in September 2017.

Initiating Systems achieved 8% improvement in Overall Equipment Effectiveness (OEE), a key indicator of uptime, performance and quality. This improvement is a direct result of BEx initiatives.

Quarry & Construction

39% of Americas Explosives revenue was generated from the Quarry & Construction sector in the half. Sector volume grew 5% as compared to 1H16, reflecting Dyno Nobel's leading position in this end market, which benefits from a favourable mix of high grade explosives, proprietary initiating systems and services.

Americas Explosives Volume Americas Explosives Revenue

Quarry & Construction EBIT increased by US\$2.0m, partially offsetting declines in the Base & Precious Metals and Coal sectors noted below. The sector benefited directly from improved OEE as noted above, which supported increased sales into the sector and improved operating leverage.

Explosives	Plant	Half Year Ended 31 March		
		1H17	1H16	Change %
Thousand metric tonnes				
Ammonium Nitrate ¹⁶	Cheyenne	158.2	137.4	15.1 %
Ammonium Nitrate	Louisiana, MO	124.1	109.5	13.3 %
Manufactured Product		282.3	246.9	14.3 %
Product Sold		319.4	328.6	(2.8)%
US\$m				
Quarry & Construction		131.9	126.5	4.3 %
Base & Precious Metals		125.0	131.9	(5.2)%
Thermal Coal		81.5	88.0	(7.4)%
Met Coal		2.8	5.1	(45.1)%
Revenue		341.2	351.5	(2.9)%
EBIT		52.6	42.4	24.1 %
<i>EBIT margin</i>		15.4%	12.1%	

Base & Precious Metals

36% of Americas Explosives revenue was generated from the Base & Precious Metals sector in the half, the majority of which was from iron ore mines in the US Midwest and West.

Americas Explosives Volume Americas Explosives Revenue

Sector revenue contracted 5% during the period, broadly due to subdued commodity prices.

Coal

25% of Americas Explosives revenue was generated by the Coal sector. 44% of ammonium nitrate volume sold was to this sector, the vast majority of which was supplied to thermal coal mines in the Powder River Basin.

Americas Explosives Volume Americas Explosives Revenue

Coal revenue declined 5% during the period as compared to 1H16. This was in part a result of electricity generators working through inventories.

Outlook

Recent Quarry & Construction activity has been encouraging and is expected to benefit from a five-year US\$305Bn US highway spending bill announced in December 2015 that includes US\$205Bn for highways and US\$48Bn for transit projects.

The Coal sector is expected to remain challenged in the second half as electricity generators continue to work through inventories, however IPL will benefit from a recent contract win in the Illinois Basin.

Incitec Pivot Limited

GLOBAL DIVERSIFIED INDUSTRIAL CHEMICALS

Results for the half year ended 31 March 2017

Americas – Industrial Chemicals

Industrial Chemicals comprised 47% of Americas earnings and 25% of Group earnings in 1H17.⁷

Industrial Chemicals	Plant	Half Year Ended 31 March		
		1H17	1H16	% Change
Thousand metric tonnes				
Ammonia	Waggaman	297.7	-	
Manufactured Product		297.7	-	
Ammonia		278.1	-	
Product Sold		278.1	-	
US\$m				
Waggaman		45.2	-	
Other		24.8	21.7	14.3 %
External Revenue		70.0	21.7	
Waggaman Operational Earnings		10.8	-	
Waggaman Delay Damages		35.1	-	
Other		1.5	1.1	36.4 %
EBIT		47.4	1.1	
		67.6%	5.1%	
Notes				
Ave Realised Ammonia (CFR Tampa, US\$/mt)		267.1	-	
Ave Realised Gas Price (US\$/mmbtu) ¹⁷		3.19	-	

EBIT Movements

Industrial Chemicals earnings increased US\$46.3m as compared to 1H16 due to the following factors:

Operational factors:

- **Waggaman Operational Earnings:** US\$10.8m after US\$5.5m of gas inefficiencies and US\$5.8m of unabsorbed costs associated with the plant running below nameplate.
- **Waggaman Delay Damages:** US\$35.1m (as disclosed on 18 January 2017), which is A\$29.1m after tax (based on US statutory tax rate of 38.5% and realised A\$/US\$ exchange rate of 0.743 specific to Waggaman).
- **Cheyenne and St Helens Production:** US\$0.4m from a 6% increase in UAN and urea production.¹⁸

Manufacturing

Waggaman produced 297.7k mt of ammonia since handover, resulting in 83% uptime when calculated against an 800k mt per annum nameplate capacity. As disclosed in February 2017, the plant is expected to achieve ~80% uptime in FY17, which includes a "pit stop" to remedy outstanding punch-list items in the second half.

Outlook

Industrial Chemicals operational earnings are expected to grow as Waggaman continues to increase production levels. These earnings are subject to movements in ammonia and natural gas prices.

Americas – Fertilisers

Fertilisers comprised less than 1% of Americas earnings and Group earnings in 1H17.⁷

Fertilisers	Plant	Half Year Ended 31 March		
		1H17	1H16	% Change
Thousand metric tonnes				
UAN	Cheyenne	88.4	101.3	(12.7)%
	St Helens	29.9	24.0	24.6 %

EBIT		0.8	3.0	(73.3)%
EBIT margin		2.4%	6.6%	
Notes				
Ave Realised Urea (FOB NOLA, US\$/mt)		347.7	381.1	(8.8)%

EBIT Movements

Fertilisers earnings declined US\$2.2m as compared to 1H16 due to the following factor:

Cyclical and structural factors:

- **Fertiliser Prices:** (US\$2.2m) due to lower global prices, including a 9% fall in average realised urea (FOB NOLA) prices.

Manufacturing

In aggregate, the St Helens and Cheyenne plants produced 181.9k mt of UAN and urea in 1H17, a 6% increase period on period. As noted above, Cheyenne is scheduled for a major turnaround which is due to commence in September 2017.

Outlook

Fertilisers earnings in the second half will remain subject to movements in commodity prices, in particular urea and UAN.

Asia Pacific

1H17 EBIT Contribution⁷

Asia Pacific contributed 47% of Group EBIT in the half as compared to 65% in FY16.⁷

Business Performance

EBIT from the Asia Pacific business declined \$24.5m or 17.2% to \$118.0m largely as a result of depressed period on period fertiliser prices and the impacts of Cyclone Debbie.

EBIT Movements

EBIT movements by sector versus 1H16 follow:

- **Explosives:** \$3.5m or 4%, driven by resilient customer demand and BEx benefits, less the impact of the Moranbah turnaround. Result underpinned by sustained Bowen Basin met coal demand and privileged position of the Moranbah plant.
- **Industrial Chemicals:** (\$1.4m) driven by depressed commodity prices.
- **Fertilisers:** (\$26.6m) or (66%) driven by global fertiliser prices which were well below long-term trend despite strong domestic demand.

Asia Pacific	Half Year Ended 31 March		
	1H17	1H16	Change %
A\$m			
Explosives	444.9	446.7	(0.4)%
Industrial Chemicals	34.6	41.3	(16.2)%

<i>EBIT margin</i>	<i>12.2%</i>	<i>14.7%</i>	

Incitec Pivot Limited

GLOBAL DIVERSIFIED INDUSTRIAL CHEMICALS

Asia Pacific – Explosives

Asia Pacific Explosives comprised 77% of Asia Pacific EBIT and 36% of Group EBIT.⁷

EBIT Movements

Explosives earnings increased \$3.5m or 4% as compared to 1H16 due to the following factors:

Operational factors:

- **BEx:** \$19.9m through continuous and organisation focused improvement initiatives.
- **International:** \$0.7 driven by increased volume in Indonesia.
- **Cyclone Debbie:** (\$2.6m) due to lost Moranbah production.
- **Moranbah Turnaround:** (\$14.5m) due to a planned six-week turnaround which commenced in March 2017.

Manufacturing

Moranbah manufactured 138.8k mt of ammonium nitrate during the half. The plant ran for five months during the period, which included the commencement of a planned six-week turnaround on 2 March 2017.

Moranbah Ammonium Nitrate Production

Thousand metric tonnes

Coal

47% of Asia Pacific Explosives revenue was generated from the Coal sector, the majority of which was supplied to metallurgical coal mines in Queensland's Bowen Basin. In aggregate, 51% of Asia Pacific ammonium nitrate volume was supplied to the sector.

Asia Pacific Explosives Volume

Asia Pacific Explosives Revenue

Results for the half year ended 31 March 2017

Explosives		Half Year Ended 31 March		
		1H17	1H16	Change %
Thousand metric tonnes				
Ammonium Nitrate	Moranbah	138.8	169.1	(17.9)%
Manufactured Product (ex JVs)		138.8	169.1	(17.9)%
Product Sold		344.4	321.8	7.0 %
A\$m				
Coal		212.0	214.8	(1.3)%
Base & Precious Metals		163.6	160.8	1.7 %
International		69.2	71.2	(2.8)%
Revenue		444.9	446.7	(0.4)%
EBIT		91.6	88.1	4.0 %
<i>EBIT margin</i>		21%	20%	

Volume sold to the Coal sector grew 4% as compared to 1H16, driven by increasing customer demand which offset the impact of Moranbah's turnaround and Cyclone Debbie. This result highlighted the resilience of the Bowen Basin as the world's premier metallurgical coal mining region, and the commercial benefit of Moranbah's geographical position.

Base & Precious Metals

37% of Asia Pacific Explosives revenue was generated by the Base & Precious Metals sector in the half. In aggregate, 32% of Asia Pacific ammonium nitrate volume was supplied to the sector, which comprises iron ore mines in Western Australia and hard rock and underground mines.

Asia Pacific Explosives Volume

Asia Pacific Explosives Revenue

Volume sold to the sector increased by 4% during the period, largely driven by a recovery in commodity prices, particularly iron ore, and increased volume output from miners in Western Australia. Demand for initiating systems and services generally grew in tandem with volume.

International

16% of Asia Pacific Explosives revenue was generated internationally. Volume sold internationally increased 24% as compared to 1H16, largely driven by activity in Indonesia. This led to overall international EBIT increasing modestly during the period.

Outlook

Recent Coal and Base & Precious Metals activity has been encouraging, with the longer term production outlook improving, particularly in the Bowen Basin.

Asia Pacific – Industrial Chemicals

EBIT from Industrial Chemicals comprised 11% of Asia Pacific EBIT and 5% of Group EBIT.⁷

EBIT Movements

Industrial Chemicals earnings declined \$1.4m or 10% as compared to 1H16 due to the following factor:

Cyclical and structural factors:

- **Commodity Prices:** (\$1.4m) due to a decline in commodity prices versus 1H16.

Outlook

Industrial Chemicals volumes in the second half are expected to be broadly consistent with those of 1H17, with earnings subject to movements in commodity prices.

Industrial Chemicals		Half Year Ended 31 March		
		1H17	1H16	Change %
		Thousand metric tonnes		
	Plant			
Ammonia	Gibson Island	8.5	11.0	(22.7)%

EBIT		12.8	14.2	(9.9)%
<i>EBIT margin</i>		37%	34%	

Asia Pacific – Fertilisers

Fertilisers comprised 12% of Asia Pacific EBIT and 5% of Group EBIT.⁷

EBIT Movements

Fertilisers earnings declined \$26.6m or 66% as compared to 1H16 as a result of the following factors:

Cyclical and structural factors:

- **Global Fertiliser Prices:** (\$44.7m) due to lower realised fertiliser prices, including a 19% fall in DAP and a 4% fall in urea prices.
- **Foreign Exchange:** (\$9.3m) due to the strengthening A\$ versus the US\$.
- **Gibson Island Electricity:** (\$4.5m) due to increased electricity costs to the plant.

Operational factors:

- **Accelerated Maintenance:** (\$5.3m) from the acceleration of maintenance to coincide with below trend DAP prices, resulting in lower production. This was offset by the absence of a train derailment that impacted the prior period's result.
- **Volume and Margin:** \$12.3m through increased volumes. Distribution margins were consistent with the improved levels achieved in FY16.
- **BEx:** \$24.9m.

Manufacturing

Phosphate Hill produced 442.4k mt of ammonium phosphates in the half which, as noted above, included the impact of maintenance that was accelerated to coincide with depressed DAP prices. The plant is expected to produce ~500kt in 2H17 consistent with prior years, which would result in an average ~1,000k mt of production per annum since FY15.

Phosphate Hill Ammonium Phosphate Production

Ave realised A\$/US\$ exchange rate		0.748	0.728	

Delivery of gas to Phosphate Hill under the QGC contract secured in FY16 commenced on 1 January 2017, reducing gas costs as compared to 1H16. The PWC contract remains on track to deliver gas from the Northern Territory from 2019.²⁰

Gibson Island electricity costs increased by \$4.5m, the majority of which was caused by an increase in delivered electricity prices.

Domestic Sales & Marketing

EBIT from Domestic Sales & Marketing decreased 68% as compared to 1H16, primarily driven by a decline in fertiliser prices and the strengthening A\$ versus the US\$. These headwinds were partially offset by well above average domestic volume on the back of robust agronomic conditions. These headwinds were also offset by stabilised distribution margins following improvements achieved in FY16.

International Sales & Marketing

EBIT from International Sales & Marketing decreased to \$4.2m also largely due to a decline in fertiliser prices and to the strengthening A\$.

Outlook

The well above average demand experienced in 1H17 is expected to continue into the second half, underpinned by encouraging agronomic conditions and improved water storage levels. Sector demand is likely to also benefit as farms look to replenish nutrient levels as a consequence of the strength of the FY16 harvest and forecast growing conditions.

Fertilisers earnings will continue to be dependent on global fertiliser prices and the A\$/US\$ exchange rate. It should be noted that 31 March 2017 spot prices were above IPL's average realised 2H16 prices as set out on Page 2.

Efforts to secure long-term economic gas to Gibson Island remains a key management focus.²¹

Income Statement

Revenue

Group revenue increased by 1% to \$1,535.7m as compared to \$1,524.0m in 1H16.

EBIT

EBIT ex IMIs increased 23% or \$45.5m to \$242.8m. Underlying movements in EBIT are set out below by Cyclical and Structural Factors and Operational Factors, as well as by business.

Movements in EBIT		
Item	Business	Amount
A\$m		
Cyclical and Structural Factors		
Commodity Prices	Asia Pacific & Americas	(48.5)
Foreign Exchange	Asia Pacific & Americas	(12.4)
Base & Precious Metals and Coal Decline	Americas	(7.2)
Gibson Island Electricity Costs	Asia Pacific	(4.5)
Q&C Growth	Americas	2.7
Total		(69.9)
Operational Factors		
BEx	Asia Pacific & Americas	63.9
Waggaman Earnings	Americas	61.0
Fertiliser Volume and Margin	Asia Pacific	12.3
International	Asia Pacific	0.7
Impacts of Cyclone Debbie	Asia Pacific	(2.6)
Accelerated Phosphate Hill Maintenance offset by 1H16 Train Derailment	Asia Pacific	(5.3)
Moranbah Turnaround	Asia Pacific	(14.5)
Total		115.4
Total Movements in EBIT		45.5

Interest

Underlying interest cost of \$51.5m was \$6.1m above 1H16. Net borrowing costs increased from \$24.4m to \$49.9m mainly as a result of the cessation of interest capitalisation relating to Waggaman.

Tax

Tax expense pre-IMIs increased by \$4.3m to \$39.7m as compared to 1H16, attributable to a corresponding increase in underlying earnings.

IPL's effective tax rate on operating profit for the half was 20.6%, consistent with the 1H16 rate of 20.5%.

NPAT

NPAT ex IMIs of \$152.1m represents an 11% increase versus 1H16.

Balance Sheet

Assets

- **Trade Working Capital (TWC):** TWC movement primarily reflected the normal seasonal build-up of working capital for Fertilisers and Explosives, build-up of stock for the Moranbah turnaround and inventory at Waggaman.
- **Property, Plant & Equipment (PP&E):** Decreased by \$3.6m to \$3,889.1m as compared to FY16. Significant movements included capital expenditure of \$125.9m, offset by depreciation of \$117.3m. Capital expenditure is described in greater detail on the following page.

Liabilities

- **Tax Liabilities:** Increased by \$48.1m as compared to FY16 to \$463.0m mainly due to increased pre-tax earnings, the impact of the higher A\$ on foreign currency denominated tax liabilities and timing differences between tax and accounting depreciation rates related to property, plant and equipment and intangibles.
- **Net Other Liabilities:** Decreased by \$194.3m as compared to FY16 to \$296.5m mainly due to market value movements of derivative hedging instruments (higher US interest rates), payments against capital commitments, and a decrease in the Group's defined benefit obligation (reflecting the latest actuarial estimates and additional funding contributions).
- **Net Debt:** Net Debt of \$1.7Bn was flat as compared to 1H16, but up relative to FY16 largely due to normal seasonal working capital increases. The fair value of balance sheet hedges as at 31 March 2017 was \$453.2m.

Credit Metrics

- **Net Debt/EBITDA ex IMIs:** Leverage remains inside IPL's target range of $\leq 2.5x$, after US\$804.9m expended to date on Waggaman since 2013 and challenging cyclical conditions.
- **Interest Cover:** Unchanged at 7.9x as compared to FY16.
- **Credit Ratings:** Following the FY16 result, Investment Grade credit ratings were confirmed as follows:
 - **S&P:** BBB revised upward to stable outlook on 6 December 2016.
 - **Moody's:** Baa3 revised upward to positive outlook on 19 January 2017.

Cash Flow

Operating Cash Flow

Operating cash flow decreased to (\$101.0m). Significant movements included:

- **EBITDA ex IMIs:** Increased 16% to \$373.3m.
- **TWC:** TWC movement from 30 September 2016 to 31 March 2017 was \$324.9m, compared with the movement of \$271.7m from 30 September 2015 to 31 March 2016, primarily reflecting a favourable trade working capital balance as at 30 September 2016 resulting from the timing of receivables cash flows. The actual balance at 31 March 2017 of \$271m was virtually flat against the TWC balance at 31 March 2016 (\$269.7m).
- **Net Interest Paid:** Movement in net interest paid (increase of \$22.7m) and capitalised interest paid (decrease of \$18.9m), resulted in a net increase of \$3.8m, due to higher US interest rates and lower interest received on cash deposits.
- **Environmental and Site Clean-up:** Cash costs increased to \$9.4m primarily due to the installation of \$6.0m of abatement equipment at the Louisiana, Missouri plant.
- **Restructuring:** Cash costs were \$26.5 million. The remaining balance to be paid was approximately \$8.0m at 31 March 2017.
- **Other Non-TWC:** Increased \$25.0m, largely as a result of additional contributions of \$20.5m made to the Group's defined benefit plans during the period.

Investing Cash Flow

Net investing cash flows reduced to (\$165.2m) from (\$261.5m) in 1H16. Significant movements included:

- **Major Growth Capital:** Waggaman spend of \$69.7m and \$4.3m of capitalised interest in the half. Total US\$ project cash spend as at 31 March 2017 was US\$804.9m not including capitalised interest of US\$86.2m.
- **Minor Growth Capital:** \$5.7m in the half.
- **Sustenance Capital:** Total spend of \$93.3 included payments relating to the Louisiana, Missouri plant turnaround which commenced in FY16 and initial payments for the 2017 Moranbah turnaround. Sustenance and turnaround expenditure continues to benefit from BEx process improvements including tighter expenditure scoping, improved asset care regimes, and increased focus on sustenance procurement processes.

Financing Cash Flow

Net financing cash outflows increased to (\$77.6m).

Dividends

In May 2017, the Directors of IPL determined to pay an unfranked interim dividend of 4.5 cents per share payable in July 2017. This represents a 50% payout ratio of NPAT ex IMIs.

The Directors also determined to suspend the Dividend Reinvestment Plan until further notice. The Dividend Reinvestment Program will not be available for the 2017 interim dividend.

Safety and Sustainability

Zero Harm

IPL prioritises its “Zero Harm for Everyone, Everywhere” value above all others. It does so through a fully integrated Health, Safety and Environment (HSE) system that provides the foundation for effective identification and management of HSE risks. Central to IPL’s HSE system are the “4Ps”:

- **Passionate Leadership;**
- **People;**
- **Procedures; and**
- **Plant.**

In 2012, IPL adopted a long-term objective of achieving world class safety performance. Among other measures, this included reducing TRIFR to less than 1.0. TRIFR for the 12-month period ended 31 March 2017 was 0.89, representing a 36% reduction since setting the target.

As demonstrated in the chart below, Employee Lost Day Severity Rate also declined significantly over the same period, which included a 93% reduction in 1H17 as compared to 1H16.

TRIFR and Employee Lost Day Severity Rate

Notwithstanding progress to date, IPL will continue to focus on further improvement of its safety performance.

Gender Diversity

IPL continues to make progress on its long-term diversity strategy with the following metrics as of 31 March 2017 versus 2012, which is the base year for comparison.

- **Executive Team:** 33% women from 13%
- **Senior Management:** 27% women from 16% in 2012²³
- **Management:** 22% women from 14% in 2012²⁴
- **Global Workforce:** 16% women from 14% in 2012

Sustainability

IPL’s commitment to operating sustainably is driven by the Company’s values which are core to the way IPL does business. IPL defines Sustainability as “the creation of long term economic value whilst caring for our people, our communities and our environment.”

IPL’s Sustainability Strategy was formally adopted by the Board in September 2010 and reaffirmed following a review in 2014. Environmental, Social and Governance (ESG) considerations material to the sustainability of IPL have been included in its 2016 Annual Report and Sustainability Report.

IPL is a member of the Dow Jones Sustainability Index (DJSI), FTSE4Good Index and ECPI Indices, and is rated by CAER, EcoVadis, MSCI, Sustainalytics and Vigeo EIRIS.

1. Net Debt aggregates interest bearing liabilities plus the fair value of derivative instruments in place economically to hedge the Group's Interest bearing liabilities, less available cash and cash equivalents.
2. TRIFR calculated as the number of recordable injuries per 200,000 hours worked; includes contractors. TRIFR results are subject to finalisation of the classification of any pending incidents.
3. Employee Lost Day Severity Rate calculated as the number of employee lost work days per 200,000 hours worked represented in days; does not include contractors.
4. Tier 1 and Tier 2 process safety events as defined by the Center for Chemical Process Safety. 12-month statistics shown, as dataset for longer periods is not available.
5. BEx = Business Excellence, IPL's productivity improvement system based on the Toyota Production System; net of annual cost escalation of \$45m per Annum.
6. Interest Cover = Average 12 month rolling EBITDA / net interest expense before accounting adjustments.
7. Excludes corporate elimination of (\$9.2m).
8. Source: Bloomberg.
9. DAP: Diammonium Phosphate; FOB: Free On Board.
10. Based on 165,000mt of urea equivalent sales (St Helens nameplate).
11. Based on actual FY16 Americas EBIT of US\$118.2m and an average realised exchange rate of A\$/US\$ 0.7359.
12. Based on 640,000 mt of ammonia sales (80% Waggaman nameplate capacity); CFR: Cost and Freight.
13. Based on 347,000 mt of urea equivalent sales (Gibson Island actual FY16 sales) at FY16 average realised exchange rate of A\$/US\$ 0.7393.
14. Based on 1,017,300 mt of ammonium phosphate sales (Fertilisers actual FY16 sales) and FY16 average realised exchange rate of A\$/US\$ 0.7393.
15. Based on ammonium phosphate and urea volumes and prices noted in footnotes 13 and 14, excluding impact of hedging.
16. Ammonium nitrate expressed as 100% ammonium nitrate solution throughout report.
17. Excludes delivery cost of US\$0.15 per mmbtu.
18. UAN: Urea ammonium nitrate.
19. DEF: Diesel Exhaust Fluid.
20. Refer to disclosures provided in IPL's FY16 Profit Report.
21. Refer to disclosures provided in IPL's 1H16 Profit Report.
22. Average TWC as %Revenue = 13 month average trade working capital / annual revenue.
23. Executive Team +1.
24. Executive Team +1, 2 and 3.
